

AIRsteril[®]

Air Silent Range

Hospital
Hotel
Office
Restroom
Restaurant

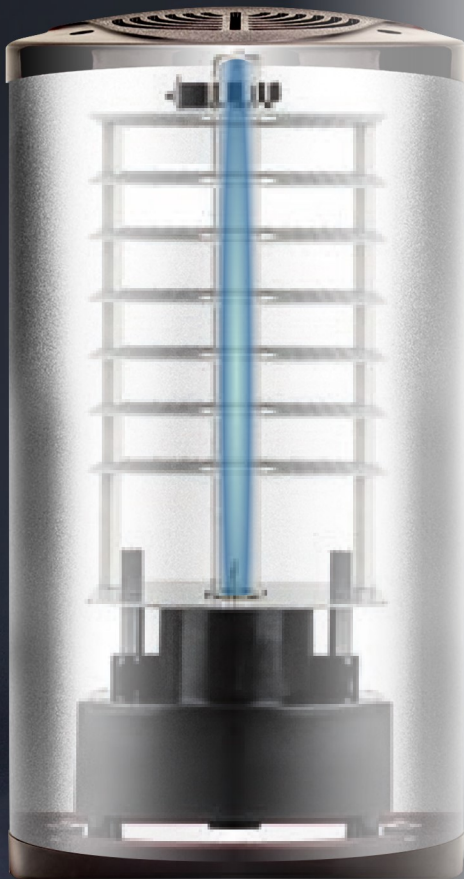

AS20

Product Specification

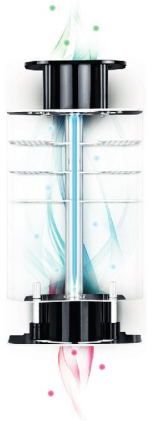

Control Odour and Germs

Photo Catalytic Oxidation
PCO

Technology

Hydroxyl Radical $\text{H}\cdot\text{O}\cdot$
Superoxide Ion $\text{O}_2\cdot^-$

- Germicidal Irradiation
- PCO Photocatalytic Oxidation
- Photoplasma
- Fanless Thermal UV

Features

- Target bacteria and virus
- Reduce cross-contamination
- Remove odour at the source
- Eliminate the need for air freshener
- Noise-free thermal UV design
- Durable housing for public use
- Wall mount bracket
- Suitable for constantly occupied space
- No filter replacement needed

Technical Details

L 345mm x W 185mm x D 95mm / 1.6 kg
Aluminium extrusion with anodised finish
220V AC Input / 18W Total power
18W Dual wave band ultraviolet (UV) lamp
9000hr Lamp life / Requires annual lamp change.

Applicable Area

Up to 40 m²

Please provide room size and ventilation prior to purchase
